

MENTAL HEALTH FIRST AID FOR PUBLIC SAFETY

Public safety officers, regardless of rank or position, may find themselves confronted with a mental health crisis. My Mental Health First Aid training helped me save a life, and regular incidents serve as reminders of how public safety officers fall back on their training in times of crisis.”

– **Captain Joseph Coffey**, Ret., Rhode Island Municipal Police Academy and Mental Health First Aid National Trainer

WHY MENTAL HEALTH FIRST AID?

Mental Health First Aid for Public Safety teaches you how to identify, understand and respond to signs of mental illnesses and substance use disorders. This training gives you the skills you need to reach out and provide initial support to someone who may be developing a mental health or substance use problem and help connect them to the appropriate care. It focuses on the unique experiences and needs of public safety personnel and is a valuable resource that can make a difference in their lives, their coworkers’ and families’ lives, and the communities they serve.
